

Enlace Chicago

Enlace Chicago is dedicated to making a positive difference in the lives of the residents of the Little Village Community by fostering a physically safe and healthy environment in which to live and by championing opportunities for educational advancement and economic development.

- ❑ Multicultural Academy of Scholarship, est. 2005
- ❑ Infinity MST High School, est. 2005
- ❑ Farragut Career Academy High School, est. 2008
- ❑ Francisco I. Madero Middle School, est. 2009

Enlace Chicago Post-Secondary Success Theory of Change

GOAL: Little Village youth graduate high school and enter college, or other post-secondary opportunities, prepared to succeed.

OUTCOMES				
Students and families understand educational system.	Students have developed social emotional, self-awareness and life skills.	Students are academically prepared.	Students and families have adequate, relevant and up to date post secondary information.	Students and families are financially savvy and prepared to make a post secondary decision.

SERVICES									
Using a wrap-around model, we provide culturally relevant services that include advocacy, leadership development, mentorship and exploration. The services include:									
Academic Acceleration and Intervention	Summer Youth Employment and Internships	Performing, Visual Arts and Cultural Enrichment	Mental and Behavioral Health Supports	Individual Post Secondary Planning	Post Secondary Success and Career Exploration workshops for all students.	Post Secondary Awareness for Families and Middle Schools	Healthy Living and Physical Activity	Immigration Services	Adult and Career Education

Families enroll and become participants. Families are connected to other services within organization and referred to partner organizations and resources.

As community and network outreach is done, community members become aware of services and resources.

Using assets-based and needs assessments in the community and school community, Enlace Chicago and partners design and implement Community Schools Program.

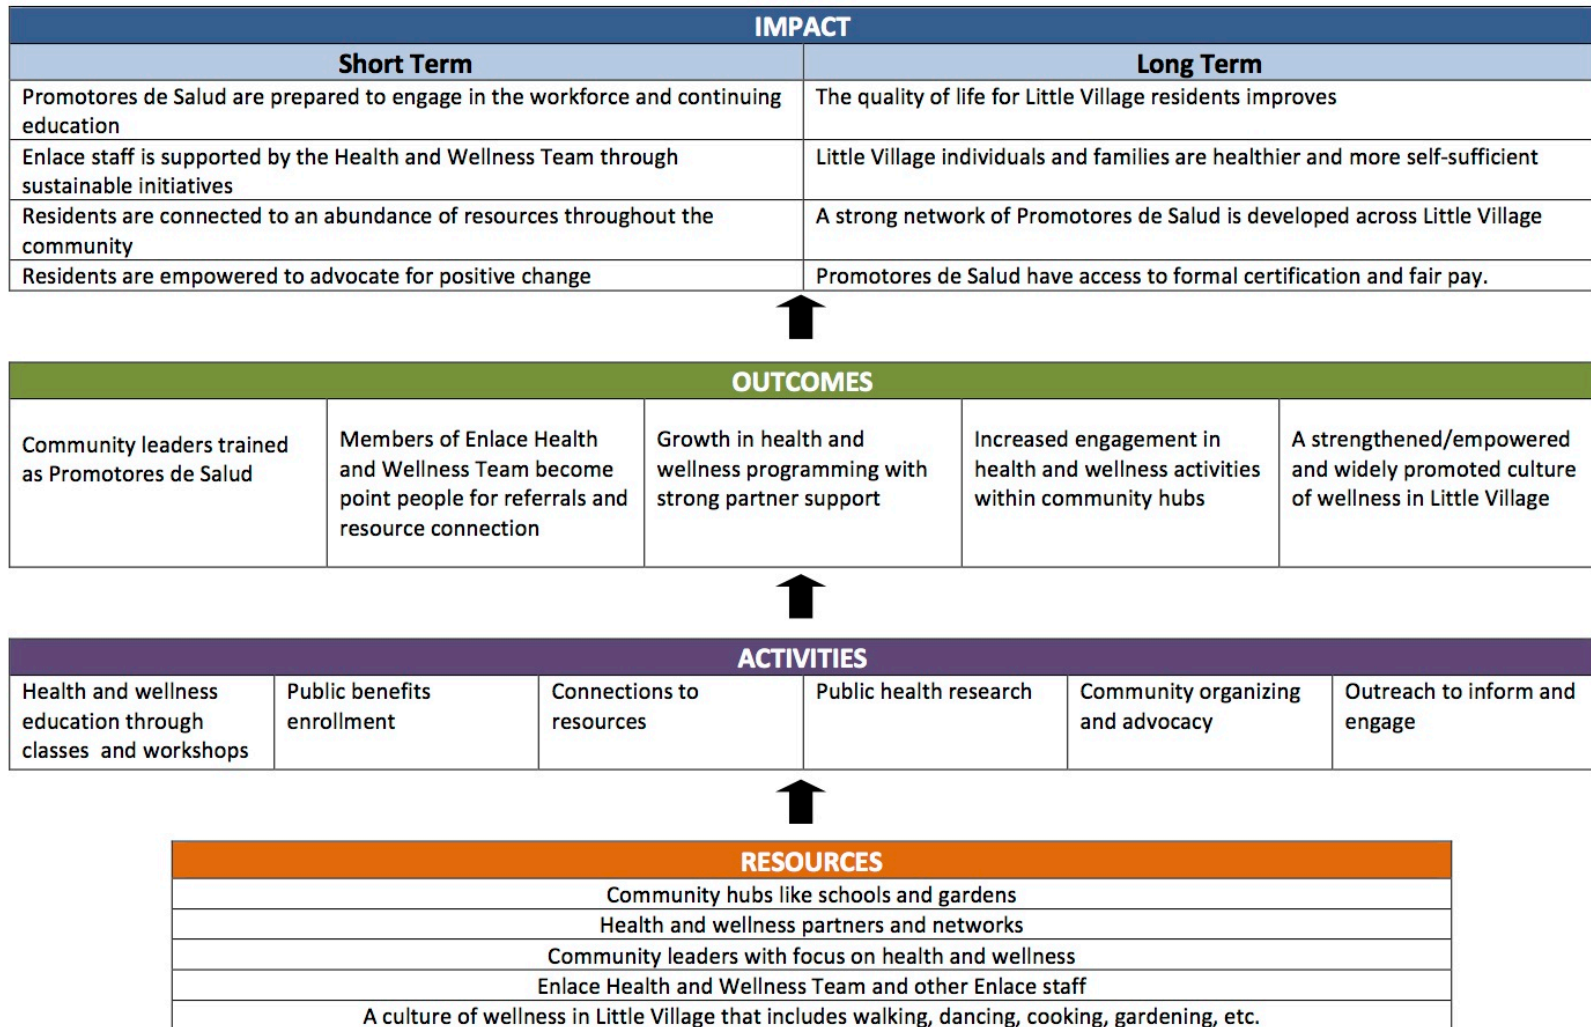

Ongoing internal and external program evaluation informs practice.

Enlace Chicago Health and Wellness Promotion Model

Enlace works to improve the overall health of Little Village residents. Enlace uses a holistic definition of health that includes physical, mental, social, emotional and financial wellness with a focus on the individual, the family, the community, and the environment.

Madero Middle School
