Creating a Blog

1. Go to http://www.blogger.com. You can also access Blogger from a Google home page: (a) select “More” on the drop-down Google menu bar, (b) select “Even more” in the menu, and then (d) scroll down to the “Social” section and select “Blogger.”

2. Log into your Google account or create a new one if needed.

3. Sign up for Blogger by completing the online form.

5. In the online form that appears, enter a title for your blog. (You may want to use a title that describes your group's project, which will be the focus of the blog.)

6. Next, provide an address (URL) for your blog. Part of the address (the domain name: .blogspot.com) is provided, but you can add whatever text you like in front of it. Again, you may want the name to reflect the project. (It may take a few tries to find a name that is not taken.)

7. Finally, select a template for the design of your blog.

8. Click “Create Blog.” This step will not complete the job, but the hard part is over.
